

Ruler Practice

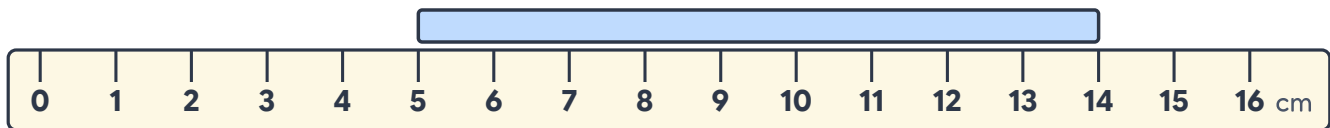

Find where each one starts and ends. Then write how long it is.

Example

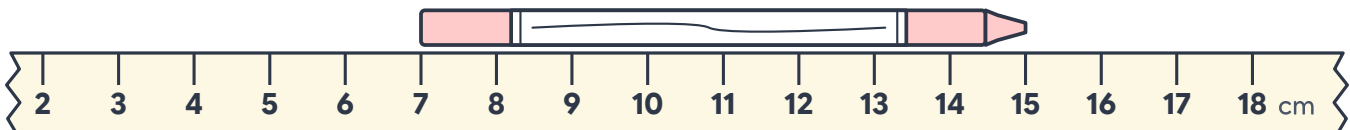

Starts at 3 Ends at 8 Length 5 cm

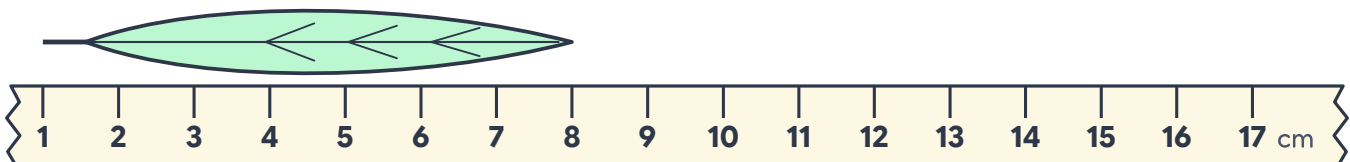

Starts at _____ Ends at _____ Length _____ cm

Starts at _____ Ends at _____ Length _____ cm

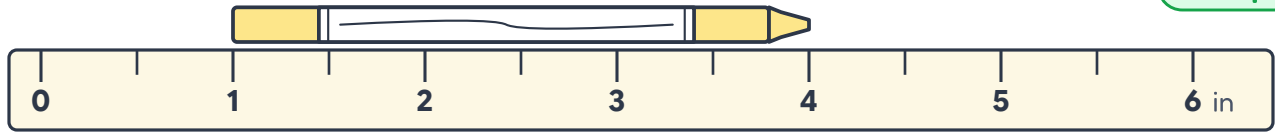

Starts at _____ Ends at _____ Length _____ cm

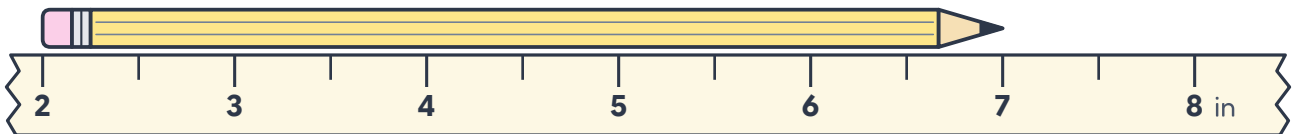

Starts at _____ Ends at _____ Length _____ cm

Ruler Practice

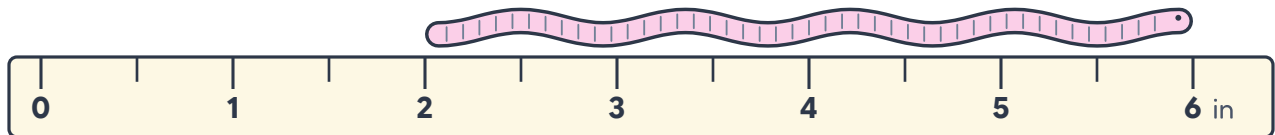

Find where each one starts and ends. Then write how many inches.

Example

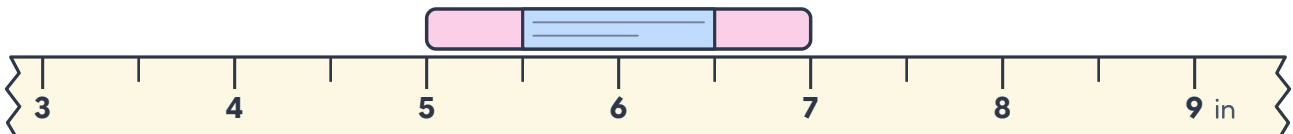

Starts at 1 Ends at 4 Length 3 inches

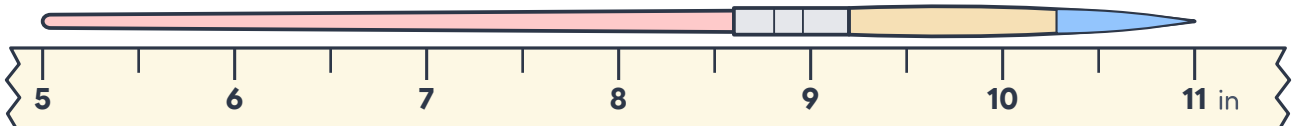

Starts at _____ Ends at _____ Length _____ inches

Starts at _____ Ends at _____ Length _____ inches

Starts at _____ Ends at _____ Length _____ inches

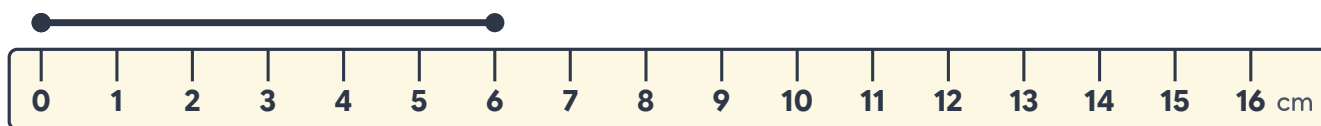

Starts at _____ Ends at _____ Length _____ inches

Ruler Practice

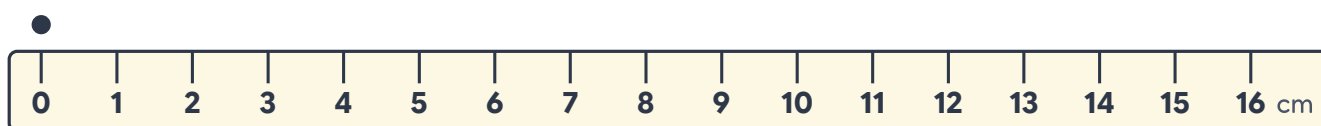

Use the ruler to draw each line or arrow.

1. Draw a line **6** centimeters long. Start at the dot.

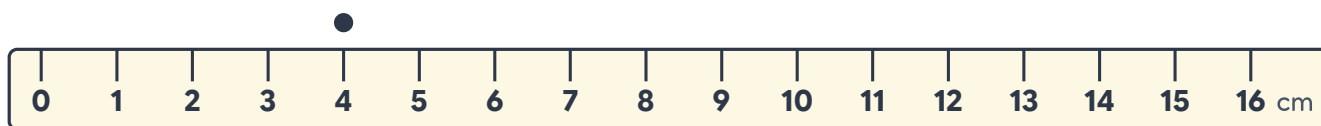

Example

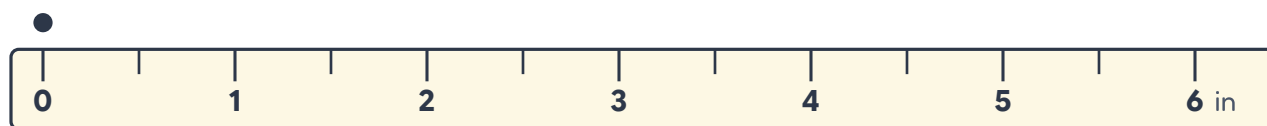

2. Draw a line **9** centimeters long. Start at the dot.

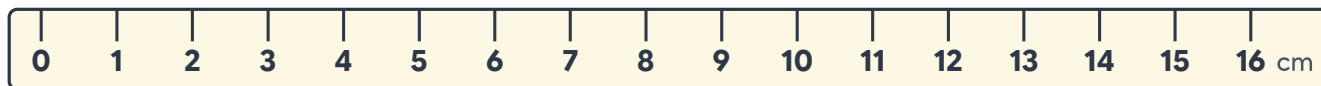

3. Start at the dot on **4**. Draw a line **7** centimeters long.

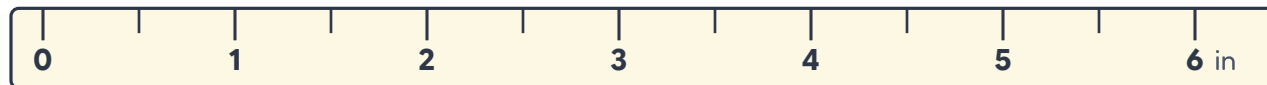

4. Draw a line **3** inches long. Start at the dot.

5. Draw an arrow to **5** and an arrow to **12** centimeters.

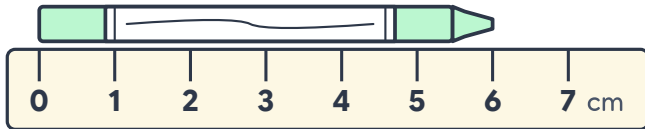

6. Draw an arrow to **2** and an arrow to **5** inches.

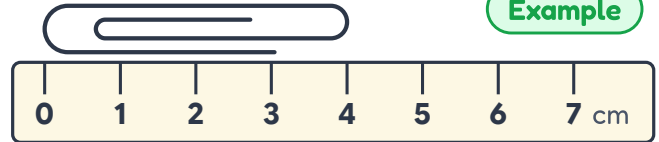

Ruler Practice

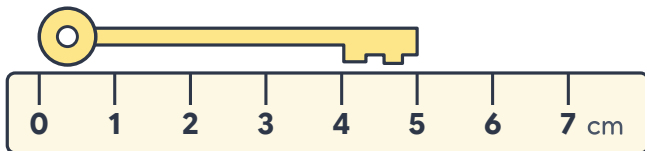

Measure both in centimeters. Write $>$, $<$, or $=$ in the circle.

How long is each line? Use the ruler.

A _____ cm

B _____ cm

C _____ cm

D _____ cm

Line C is _____ cm longer than line D.

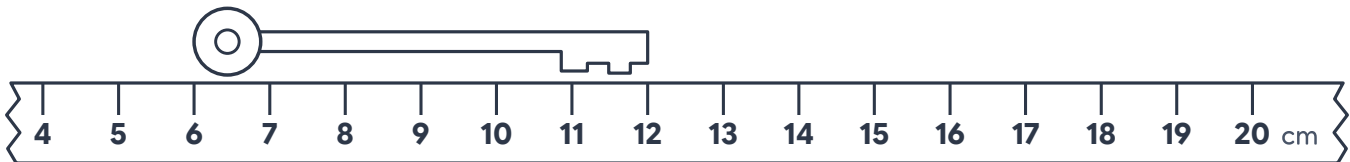

Ruler Practice

Find where each one starts and ends. Then write how long it is.

Example

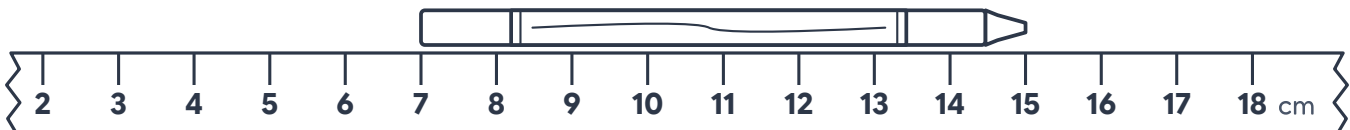

Starts at 3 Ends at 8 Length 5 cm

Starts at 6 Ends at 12 Length 6 cm

Starts at 5 Ends at 14 Length 9 cm

Starts at 7 Ends at 15 Length 8 cm

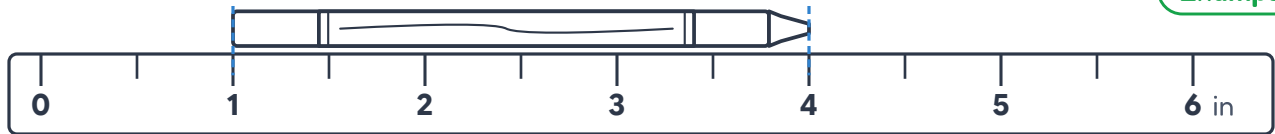

Starts at 1 Ends at 8 Length 7 cm

Ruler Practice

Find where each one starts and ends. Then write how many inches.

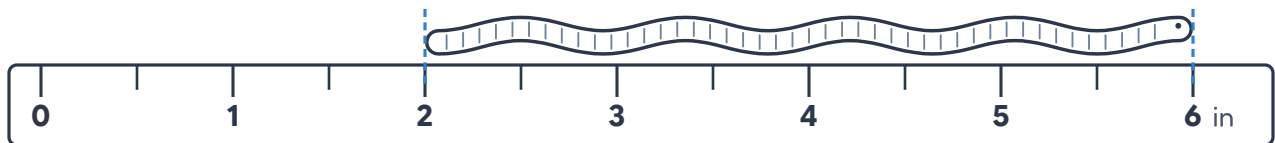

Example

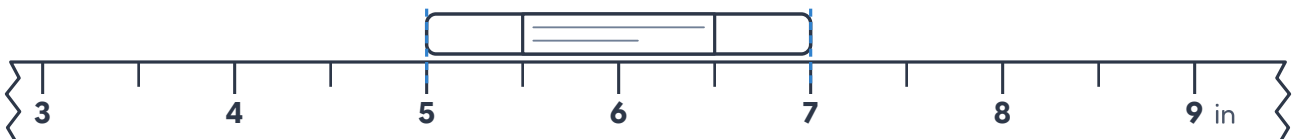

Starts at 1 Ends at 4 Length 3 inches

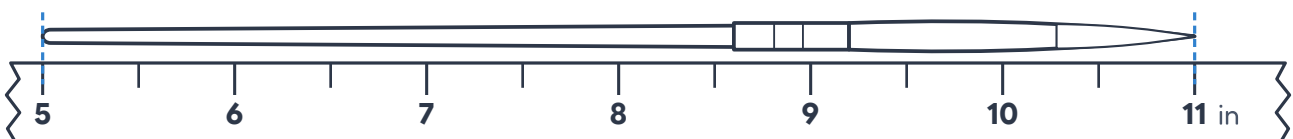

Starts at 2 Ends at 7 Length 5 inches

Starts at 2 Ends at 6 Length 4 inches

Starts at 5 Ends at 7 Length 2 inches

Starts at 5 Ends at 11 Length 6 inches

Ruler Practice

Use the ruler to draw each line or arrow.

1. Draw a line **6** centimeters long. Start at the dot.

Example

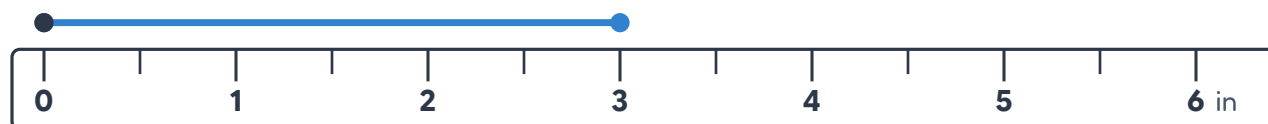

2. Draw a line **9** centimeters long. Start at the dot.

3. Start at the dot on **4**. Draw a line **7** centimeters long.

4. Draw a line **3** inches long. Start at the dot.

5. Draw an arrow to **5** and an arrow to **12** centimeters.

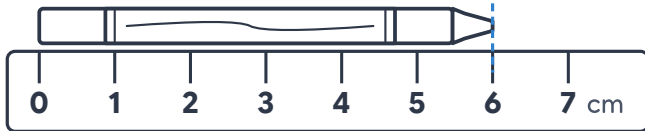

6. Draw an arrow to **2** and an arrow to **5** inches.
